RE: Docket No. 07-16; Petition for free wireless internet

Dear Secretary Dortch:

As someone who recently launched my own business, I am writing to ask you for your support of M2Z Networks' proposal to provide free broadband to the country. Entrepreneurs like me assume a great deal of risk and sometimes don't experience a return on investment for years. I could not imagine starting my venture without high speed Internet access and, thankfully, I can afford the \$50 per month cost. Other small business colleagues I know, however, are not as fortunate.

M2Z's proposal, which your commission is currently reviewing, calls for free high speed internet access for all Americans. Unlike government proposed solutions, M2Z's plan is affordable and beneficial in numerous ways. Small business owners, schools, rural areas of America and parents are among those who would welcome fast, free and family-friendly high speed Internet access.

I ask you to strongly consider the need for greater broadband access when weighing in on this innovative proposal. Thank you for your time and consideration.

Sincerely,

Ricky Mintz, President/ Owner
